RE: Agenda Item No. 11(a)(b)(c): Establishment of Voting Districts

BACKGROUND

The Imperial Valley Healthcare District (“IVHD”) is a California healthcare district established by the California Legislature pursuant to Assembly Bill 918 (2023), which was codified in Health and Safety Code section 32499.5 *et seq.* Under Health and Safety Code section 32499.7, on or before July 1, 2024, the IVHD Board of Directors (“Board”) is required to adopt a resolution to divide the district into seven voting districts, number the voting districts consecutively, and elect members of the Board by voting district beginning with the next district election occurring after January 1, 2024.

On March 14, 2024, the Board approved a contract with National Demographics Corporation to assist the Board with gathering demographic and other data about Imperial County, providing information to the community at public hearings, and creating voting district maps for the Board’s consideration. Before drawing the draft maps of the proposed voting districts, the Board held public hearings on April 11, 2024 and April 25, 2024, at which the public was invited to provide input regarding the composition of the districts. For example, at the public hearing on April 25, 2024, Dr. Jeff Tilton, Senior Consultant at National Demographics Corporation, gave a presentation about the different types of election systems, the California Voting Rights Act, the districting process, the demographics of Imperial County, how to define neighborhoods and communities of interest, and how members of the public could provide written feedback regarding the establishment of voting districts for IVHD.

On May 2, 2024, IVHD published three draft maps and the potential sequence of elections for purpose of staggered terms of office on the IVHD website, which maps are also attached to this staff report and can be publicly accessed here: Imperial Valley Health Care 2024 Districting (arcgis.com).

The Board anticipates two additional public hearings on May 9, 2024 and June 13, 2024, at which the public is invited to provide input regarding the content of the draft maps and the proposed sequence of elections. At the public hearing on May 9, 2024, the Board is scheduled to review and discuss the three draft maps, consider any feedback from the public, and select one map for final consideration at the next public hearing. The Board's final approval establishing the voting districts is scheduled to take place at the public hearing on June 13, 2024 so the Board can meet the statutory deadline of July 1, 2024.

As required under Health and Safety Code section 32499.7(a)(2), IVHD through its Board members, legal counsel, and consultant have collaborated with the Imperial County Local Agency Formation Commission ("LAFCO") in establishing the voting districts. Specifically, IVHD has solicited feedback from LAFCO's Executive Director via emails, phone calls, and virtual meetings on the process and timeline for establishing the voting districts.

In accordance with Elections Code section 21130(b), IVHD is required to conduct an analysis to determine whether is possible to create an election district or districts in which a minority group is sufficiently large and geographically compact to constitute a majority in a single-member district. IVHD must publish the analysis on the IVHD website within seven (7) days of completing the analysis or prior to adopting its voting district boundaries, whichever occurs first.

RECOMMENDATION

1. Review the three draft maps and the draft resolution attached hereto, discuss, and select one draft map for final consideration and adoption at the next public hearing scheduled to take place on June 13, 2024.
2. Direct legal counsel or their designee to conduct and post the minority group analysis as required under Elections Code section 21130(b).
3. Discuss and provide direction regarding the proposed sequencing and staggering of Board seats as proposed in the draft resolution.
4. Discuss or take other action as appropriate.

Elections Code Section 21130(b)(1) language:

*Consistent with the districting body's existing obligations under the federal Voting Rights Act, the districting body shall determine whether it is possible to create an election district or districts in which a minority group is sufficiently large and geographically compact to constitute a majority in a single-member district, as set forth in *Thornburg v. Gingles*, 478 U.S. 30 (1986), and as interpreted in case law regarding enforcement of the federal Voting Rights Act with respect to redistricting. The districting body shall publish on its redistricting web page, at a minimum, the results of its analysis within seven days of completing the analysis or prior to adopting election district boundaries, whichever occurs first.*

Disclosure:

National Demographics Corporation (NDC), on behalf of Imperial Valley Healthcare District, has analyzed the District's demographics and determined that it is possible to create an election district or districts in which a protected class is sufficiently large and geographically compact to constitute a majority in a single-member district, as set forth in *Thornburg v. Gingles*, 478 U.S. 30 (1986), and as interpreted in case law regarding enforcement of the federal Voting Rights Act with respect to redistricting. NDC used the most recent data on Citizen Voting Age Population data available from the Census Bureau at the time of the analysis: block-group-level data from the 2018-2022 Special Tabulation of the American Community Survey.
